 Prescribed by GSA
 FPMR (41 CFR) 101-11.206

★ GPO : 1981 O - 361-529 (148)

STAT We have received D/OIT's response to your request concerning relocation of HQs OIT components [redacted] Two issues raised were not staffed in advance by OIT:

- STAT
- ① Is it feasible to waive Tempest requirements for [redacted] (see para #3)
 - ② What is the estimated cost of the renovation or actual moving? (para #3)

You'll need that information to scope the total cost of an OIT relocation.

STAT *If you concur, I'll staff these two issues to OS and OL, respectively. (Or would you prefer to keep this coordination between you and D/OIT?)

(D/OIT's response is attached)

STAT

- OIT relocated [] people.

STAT

- OIT wants []
minimal renovation expected.

STAT

STAT

- OIT wants [] to upgrade to Tempest equipment
[] This is a worst-case number,
and may be substantially high if existing Delta
Data terminals can be relocated. (Tempest issue)

STAT

STAT

STAT

- OIT wants [] to upgrade the []
commo grid (more capacity).

- Unrelated issue - OIT wants []
for an equipment test center.

UNKNOWN

STAT

- ① Can current OIT equipment (originally Tempest certified) be relocated?
- ② Can Tempest waiver for [] be obtained?
(Cairade effect on other outbuildings?)
- ③ Cost of actual move and renovations?

OIT #0752-86
2 September 1986

MEMORANDUM FOR: Deputy Director for Administration

FROM: Edward J. Maloney
Director of Information Technology

SUBJECT: OIT [] Move Requirements

1. In response to your verbal request, I am prepared to move several OIT components, including the Office of the Director of Information Technology, to [] as soon as appropriate space and communications facilities can be prepared.

2. In order to accommodate the OIT groups which are scheduled to move, we request [] sq. ft. on the third floor [], containing the offices currently configured for the Director of OD&E and his immediate Staff. I also request [] be assigned to OIT to accommodate a testbed based on experimental non-TEMPEST equipment. Following are the OIT components in Headquarters identified to move: OIT Front Office [], Administrative Staff [], Human Resources Staff [], Architectural and Technology Planning Staff [], Special Assistant for Development and Engineering [], Chief, Management and Consulting Group [], Consulting Services Branch [], office-level Systems Integrator [] and Management Division []. This is a total of [].

3. Some renovations, including enhancement of data communications capabilities, will be needed to support this move. OD&E currently has [] people of whom approximately [] will remain []. The secure communications grid [] must be upgraded to support OIT workstations at a cost of []. The cost to replace non-TEMPEST Headquarters equipment with TEMPEST equipment will be []. A general TEMPEST waiver would eliminate this expense. Based on the assumption that the current Communications Center and DAC equipment will remain [], the combined cost of the secure grid upgrade and TEMPEST equipment will be []. A TEMPEST waiver would reduce these costs to []. The above estimates do not include renovation or actual moving costs.

4. In anticipating this move, we have made the following assumptions:

- Current data communications equipment used by OD&E and the DAC will remain [] and new equipment will be purchased for the OD&E move [].
